ITEMS NEEDING ATTENTION

Partial Implementation:

#9 - Footer Quick Links: The document mentions "TRT Services" and "Success Stories" links need to direct to topics, but current footer has:

- Weight Management - links to `/weight-management`
- About Us - links to `/about`
- FAQ - links to `/faq`
- Contact - links to `/#contact-form`

The original document noted these links "currently direct to top of page" - the contact link goes to `/#contact-form` which should work, but there's no explicit "TRT Services" or "Success Stories" links as mentioned in the document.
